About Us

We have many years of experience in drilling and bring highly trained staff and quality machinery to your property, Our main aim is to provide both domestic and commercial customers with a professional service.

We offer the customer a one-stop-shop from drilling to pump installation to water purification & products sales. Our equipment is unique in that we can access smaller areas and reduce damage to the property.

The safety of our team and clients is of paramount importance when we are drilling, we have safety protocols in place and complies on all levels with the Occupational Health and Safety Act and its regulations

Our Mission & Vision

To render professional services in boreholes drilling and committed to long term relationship with our clients and strive to be the best drilling company in South Africa

To be the most honest, ethical partner of choice and dedicated to providing the highest level of professionalism in drilling industry and committed to environmental protection.

Understanding Your Needs

We recognize the diverse water requirements of our customers and the market in general. Construction companies need dependable water for project execution, while homeowners' associations and body corporates require sustainable water sources for landscaping and irrigation. Shopping centers, schools, and car washes & dealerships demand high-volume, consistent water supply for daily operations. Our customized solutions address each client's unique needs and budget.

Our Core Values

Exceptional Results
